

OSHA #7100 Introduction to Machinery

Start Date: 8/21/2024 7:30 AM

End Date: 8/21/2024 12:30 PM

This half-day OSHA #7100 Introduction to Machinery and Machine Safeguarding course covers the process to identify, select and properly safeguard machinery to protect employees and others in the work area and deliver appropriate training in safe work practices. Course topics include types of machinery requiring guarding, point of operation, emergency eyewash/shower requirements, hazard communication, OSHA Machinery and Machine Guarding Standards violations, and corrective actions. Upon course completion students will have the ability to:

- explain hazardous actions and motions of various types of machinery;
- identify methods of safeguarding;
- match identified safeguards with the applicable OSHA Machinery and Machine Guarding Standards;
- and eliminate the potential for accidents and injuries.

Format: This class is in person at CSC offices.
