NOTES :

1) This course will be a Live Online Virtual Classroom training course. It will be a live, interactive, virtual classroom delivered right to your computer via the Internet. The instructor will teach live and you will be required to actively participate. There are technical requirements, including the use of a webcam or other camera capabilities enabled and turned on during the entire session. Technical requirement details will be provided no later than one week prior to the course date.

2) This Live Online training course only meets Monday-Wednesday-Friday over a two (2) week period. It does not meet daily during those two weeks.

The OSHA #510 course covers OSHA Standards, policies, and procedures in the construction industry. Topics include scope and application of the OSHA Construction Standards, construction safety and health principles, and special emphasis on those areas in construction which are most hazardous.

Upon course completion students will have the ability to

define construction terms found in the OSHA Construction Standards,
identify hazards which occur in the construction industry,
