

OSHA 30 Hour for Construction

Start Date: 11/6/2018 7:30 AM

End Date: 11/6/2018 4:00 PM

The OSHA 30-Hour Construction Safety and Health course is similar to the 10-hour course in terms of topics, but is designed to provide a greater depth and variety of than what is covered in the 10 hour course. The 30-hour course provides an introduction to OSHA, including workers' rights, employer responsibilities, and how to file a complaint. It also provides an overview of hazards a worker may encounter on a job site. Training emphasizes hazard identification, avoidance, control and prevention, not OSHA standards.

The OSHA 10-Hour Construction Safety and Health course is designed to provide entry level construction workers with overview information regarding OSHA, including workers' rights, employer responsibilities, and how to file a complaint. It also provides an overview of hazards a worker may encounter on a job site. Training emphasizes hazard identification, avoidance, control and prevention, not OSHA standards.

This course is taught by OSHA-authorized instructors.

NOTE: You do NOT need to complete the 10 hour course prior to taking the 30 hour course.

By the end of this course, participants will be able to:

- State work rights
- Identify common worksite hazards
- Contact OSHA to file a complaint

Target Audience : Workers who have some safety responsibility on the jobsite, Supervisors, or those who would like a more thorough understanding of the topics contained in the 10 hour course.

Language: This course taught in English.

Prerequisites : None

Minimum Class Size : 3

Maximum Class Size : 40
