

OSHA 30 Hour for Construction -

Start Date: 2/14/2023 7:30 AM

End Date: 2/14/2023 4:00 PM

The OSHA 30-Hour Construction Safety and Health course is similar to the 10-hour course in terms of topics, but is designed to provide a greater depth and variety of than what is covered in the 10 hour course. The 30-hour course provides an introduction to OSHA, including workers' rights, employer responsibilities, and how to file a complaint. It also provides an overview of hazards a worker may encounter on a job site. OSHA 30 Hr is a 'Hazards' course, with training emphasizing hazard identification, avoidance, control and prevention, rather than OSHA standards.

This course is taught by OSHA-authorized instructors.

This course runs two consecutive weeks on TUESDAY and THURSDAY, only the FIRST of the four session dates is listed on the training calendar

NOTE: You do NOT need to complete the 10 hour course prior to taking the 30 hour course.

By the end of this course, participants will be able to:

- State work rights
- Identify common worksite hazards
- Contact OSHA to file a complaint

Target Audience : Workers who have some safety responsibility on the jobsite, Supervisors, or those who would like a more thorough understanding of the topics contained in the 10 hour course.

Language: This course taught in English.

Prerequisites : None

Minimum Class Size : 3

Maximum Class Size : 40

Course Length : 30 hours (taught on two consecutive Tuesdays and Thursdays. Note that only the FIRST of the four session dates is listed on the training calendar)
