

OSHA 2225 Respiratory Protection

Start Date: 10/28/2024 7:30 AM

End Date: 10/31/2024 4:00 PM

OSHA #2225 - Respiratory Protection

This course covers the requirements for the establishment, maintenance, and monitoring of a respiratory protection program. Course topics include terminology, OSHA Respiratory Protection Standards, NIOSH certification, respiratory protection programs, and medical evaluation requirements. Program highlights include workshops on respirator selection, qualitative and quantitative fit testing, and the use of respiratory protection and support equipment.

Upon course completion students will have the ability to:

identify and describe the elements of a respiratory protection program,
the proper selection, use, and inspection of respiratory protection, protection factors,
and evaluate compliance with OSHA Standards.

Target Audience: The target audience is the small construction employer, business owner, or manager who would like to obtain information about fall hazards found in the workplace. The training is also suitable for employees and employee representatives.
